The Dairy Kompany Limited

A close-up photograph of several pieces of bright yellow cheddar cheese on a rustic wooden cutting board. The background is dark and out of focus, showing what appears to be a wooden structure. The text 'Cricketer FARM' is overlaid on the image in a white, stylized font with a gold outline and a red dot above the 'i' in 'Cricketer'.

Cricketer

FARM

CRICKETER FARM CHEDDAR

The rich green lush pastures of the rolling Somerset plains gave birth to Cricketer Farm that has lasted more than 70 years. Today the cheddar that carries the Cricketer name to the future is rich, resonant in flavour, with a long lingering balanced maturity of which the founding fathers would be proud.

The Cricketer Farm logo, featuring the word 'Cricketer' in a stylized font with a red dot above the 'i', and 'FARM' in a simpler font below it, with horizontal lines on either side.

SHIREVALE

WHITE STILTON CO.

SHIREVALE

Shirevale is a White Stilton producer based in the village of Cropwell Bishop, Nottinghamshire. Shirevale is different to other Stilton makers, as they don't make any blue cheese on their site. So the cheese made at Shirevale has a cleaner, fresher taste than most of its rivals. This allows Shirevale's Stilton to blend with fruit to create a range of outstanding tasting cheeses.
